YOUR SOLUTION

LIVE.HOMAG

60 YEARS HOMAG. 60 DAYS TREFF.

LIVE.HOMAG
60 YEARS HOMAG. 60 DAYS TREFF.

60 Years HOMAG. 60 Days Treff.

Special times require special actions. This year, HOMAG Treff is still an inherent part of our calendar – although in a different format.

On the occasion of our 60th anniversary, we are staging an unparalleled 60-day event, full of information, innovation and insights at our HOMAG Treff.

Besides hosting online events, we are also making sure the social side of the HOMAG Treff isn't lost by giving you the chance to register for face-to-face HOMAG Treffs On-Site.

These events are the ideal opportunity to experience our machines, technology and highlights live and in person.

HOMAG Treff

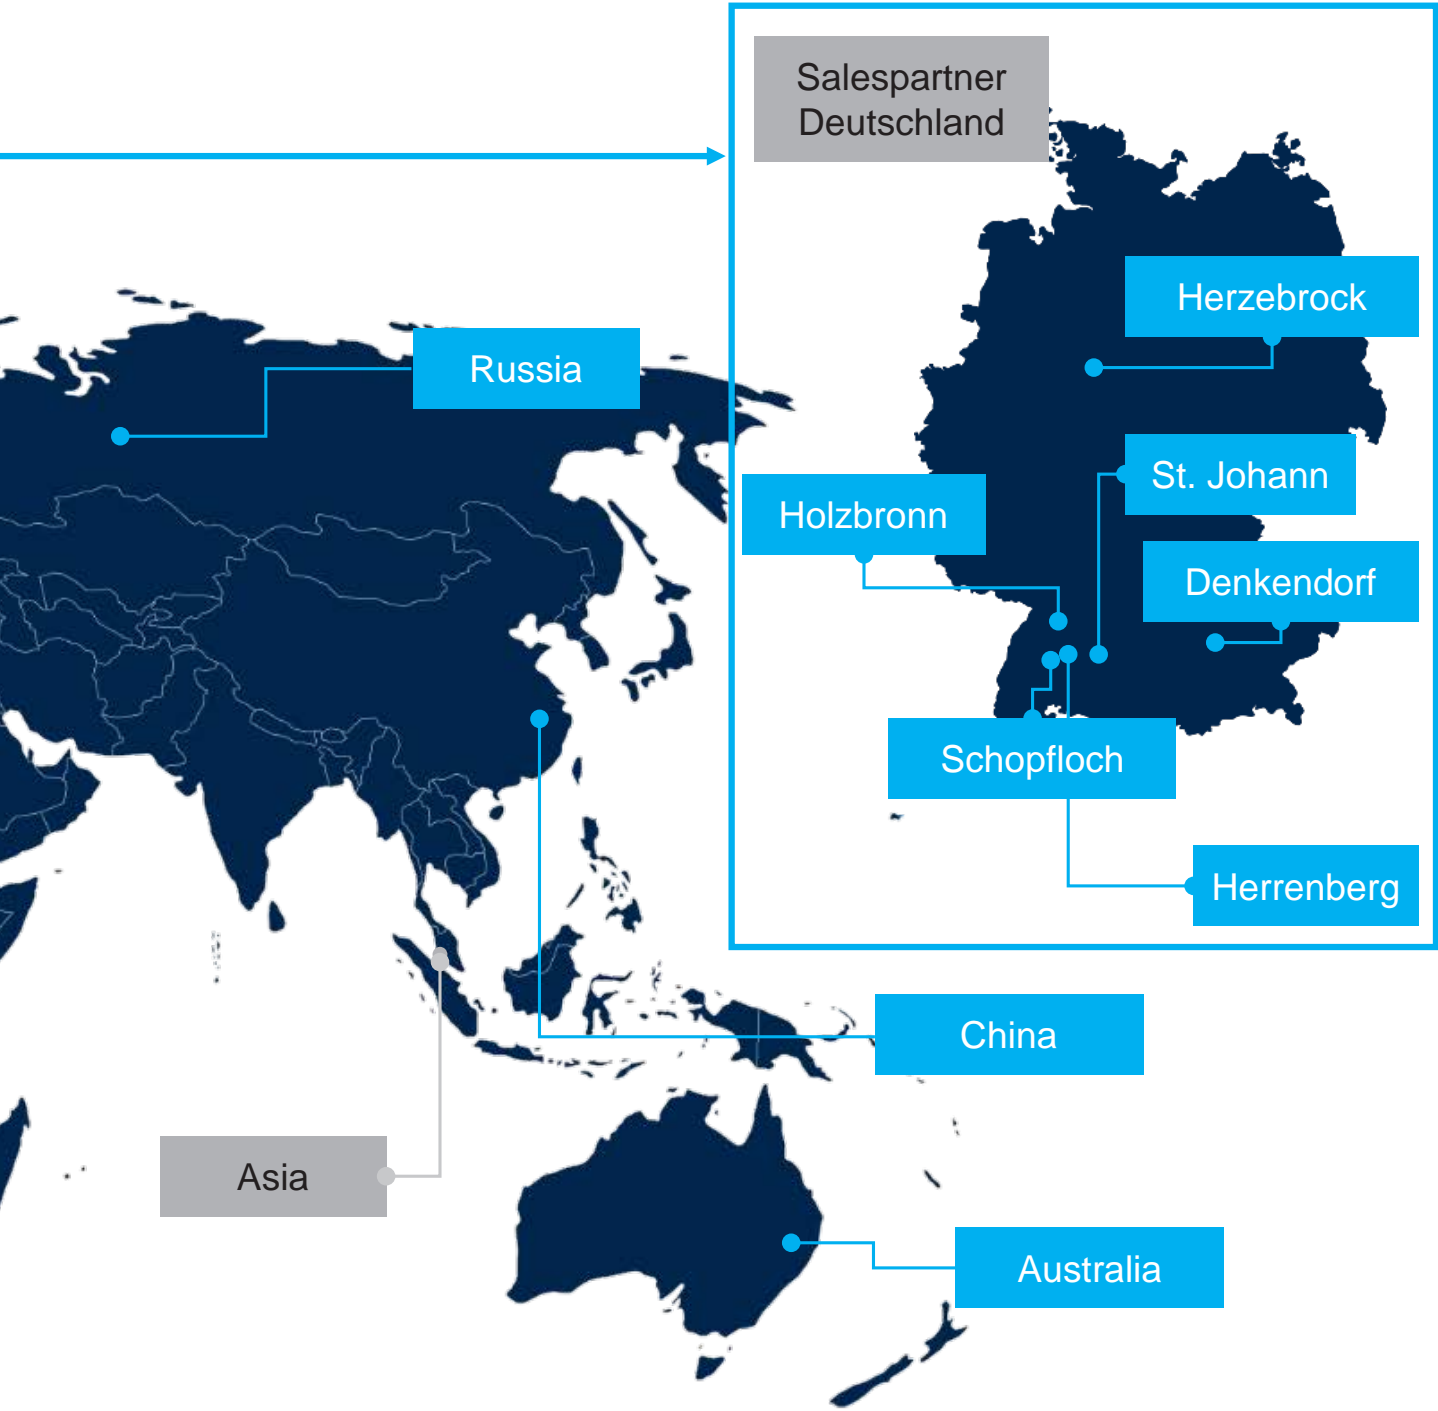

CONTENT

- 04 HOMAG – Networked worldwide
- 06 **Online-Events** HOMAG Treff 2020
- 08 Presence events in Schopfloch
- 14 Presence events in Holzbronn
- 18 Presence events in Herrenberg

Networked worldwide - HOMAG is always at your side

Individual customer requirements, sophisticated products and a wide variety of materials - the demands of your customers are constantly growing. And with it the challenges for you and your production. Our aim is to offer you the solutions you need to meet the demands for individuality. To produce flexibly and efficiently and set trends in the industry. We accompany woodworking companies of all sizes on their way to the top. With machines and technologies that grow with you - appropriate software solutions and service included.

and more
Information

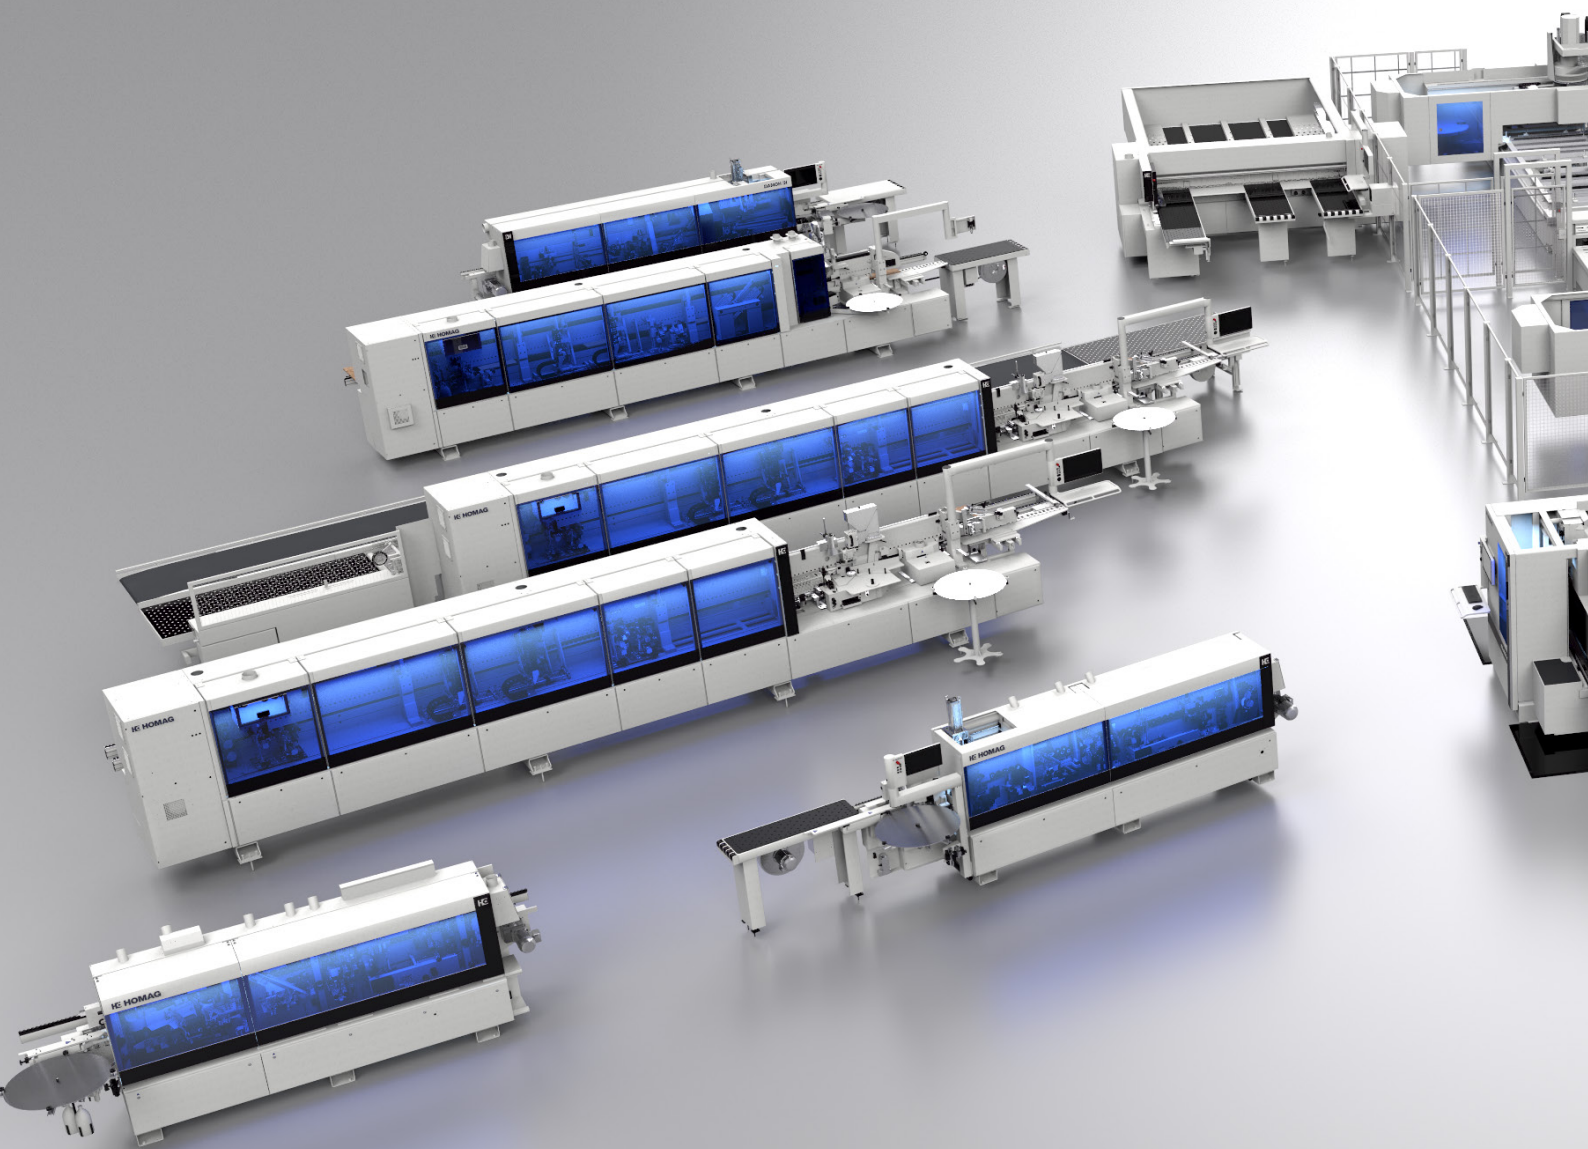

Webinars, LiveDemos and more...

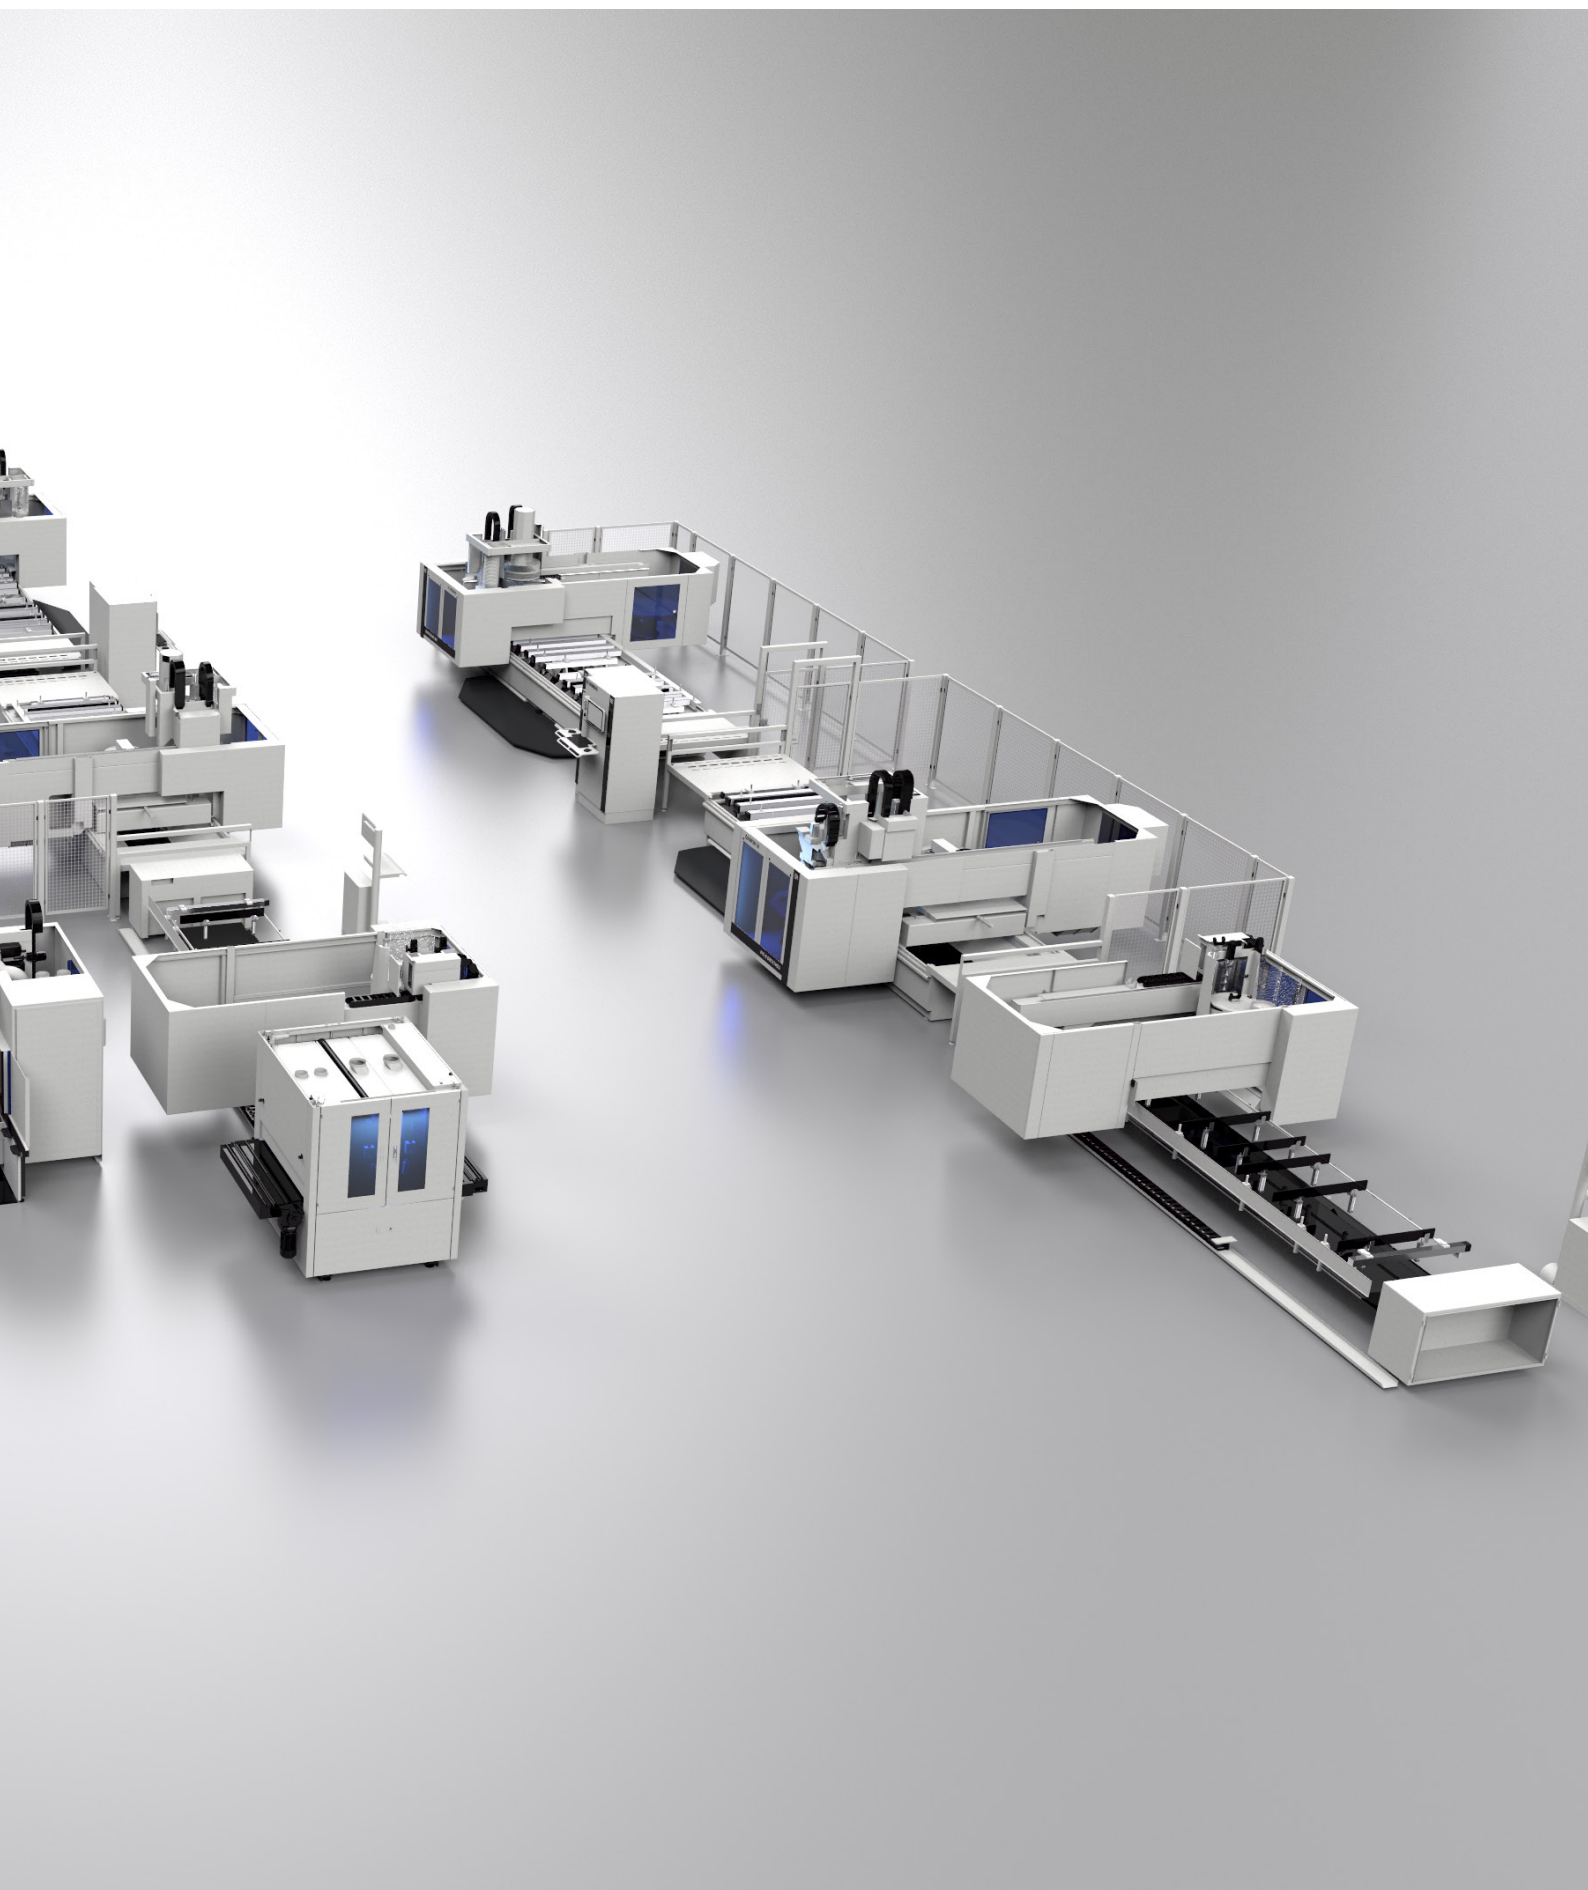

As an alternative to the events in your presence, you can secure tickets for our online events in the form of technical presentations, machine demos and webinars - so you can take it with you from the comfort of your own home.

Date	Time	Topic of the online event
follows	follows	The A-Flex table – turning “or” into “and”
		The DRILLTEQ D-510 – drilling, milling and dowel insertion in the edge area
		The DRILLTEQ V-200 – “Tips and tricks for BHX” and processing the Lamello P system
		The powerEdge Pro Duo – new opportunities in edge banding
21.09.2020	17:00 - 17:45	Enter the digital world: the tapio ecosystem for the wood industry
22.09.2020	17:00 - 17:45	Manage tools digitally & easily - insights into the App twinio
23.09.2020	16:00 - 16:45	Overall equipment efficiency – work with us to maximize your system’s potential to add value.
	17:00 - 17:45	Go, go, go for service deployment! Our digital service assistants at work.
24.09.2020		
25.09.2020	11:00 - 11:45	Service, maintenance & video diagnosis with the ServiceBoard
28.09.2020	16:00 - 16:30	Software solution for small and medium-sized businesses
29.09.2020	17:00 - 17:45	Enter the digital world: the tapio ecosystem for the wood industry
30.09.2020	16:00 - 16:45	HOMAG repair service: Reliable. Fast. Straightforward.
	17:00 - 17:45	Comprehensive service for industrial manufacturing – you’re safe with us.
01.10.2020	17:00 - 17:45	Cutting Production Set – optimization and label printing with one click
	16:00 - 16:30	intelliDivide Cutting – optimized cutting plans and data for your panel dividing process
02.10.2020	15:00 - 17:00	woodWOP for beginners
05.10.2020	16:00 - 16:30	Software solution for small and medium-sized businesses
06.10.2020	17:00 - 17:45	Manage tools digitally & easily - insights into the App twinio
07.10.2020	09:00 - 09:45	PC87 control system and Windows 10 update
	10:00 - 12:30	Window production – how to manufacture modern window systems (presentation)
	17:15 - 18:00	Comprehensive service for tradespeople and SMBs – don’t leave anything to chance.
08.10.2020	16:00 - 16:45	woodWOP – tips and tricks for productive working
	17:00 - 17:45	Edgeband Management Set – organize your edge materials in the app and in your racks
09.10.2020	09:30 - 10:30	Digital assistance systems for cutting operations
	16:15 - 16:45	intelliDivide Nesting – the optimization software for dividing panels in a nesting process
12.10.2020	16:00 - 16:30	HOMAG iX: Furniture design, interior design and optimum data for production
13.10.2020	09:00 - 09:45	Working with 3D models in woodWOP
	16:00 - 17:00	Process efficiency: fully automated shifts
	17:00 - 17:45	Service, maintenance & video diagnosis with the ServiceBoard
14.10.2020	16:00 - 17:00	Modernization – simple and customized!
	17:00 - 17:45	Go, go, go for service deployment! Our digital service assistants at work.
15.10.2020	09:30 - 10:30	More organization and automation
	14:00 - 15:00	Fully automated batch-size-1 production
	16:00 - 17:00	Starting is easy: our panel dividing technology
	16:00 - 17:00	woodWOP news & new online tools
	17:15 - 17:45	Sorting Production Set – the assistant for sorting your parts in the workshop

Date	Time	Topic of the online event
16.10.2020	09:00 - 11:00	woodWOP for beginners
	09:30 - 10:30	Digital assistance systems for cutting operations
	16:00 - 17:00	Process efficiency: fully automated shifts
19.10.2020	16:00 - 16:30	HOMAG iX: Furniture design, interior design and optimum data for production
20.10.2020	17:00 - 17:45	HOMAG repair service: Reliable. Fast. Straightforward.
22.10.2020	16:00 - 16:45	Working with 3D models in woodWOP
	17:00 - 17:45	Apps and digital assistants – more efficiency for your workshop
26.10.2020	16:00 - 16:30	The potential of MMR (machine monitoring and reporting)
	17:00 - 17:45	Comprehensive service for industrial manufacturing – you're safe with us.
27.10.2020	17:00 - 17:45	Enter the digital world: the tapio ecosystem for the wood industry
28.10.2020	10:00 - 12:30	Window production – how to manufacture modern window systems (presentation)
29.10.2020	16:00 - 16:45	Overall equipment efficiency – work with us to maximize your system's potential to add value.
	17:00 - 17:45	Cutting Production Set – optimization and label printing with one click
02.11.2020	09:00 - 09:45	Software modules for operating a CNC machining center
	16:00 - 16:30	The potential of MMR (machine monitoring and reporting)
03.11.2020	09:00 - 11:00	woodWOP for beginners
	17:00 - 17:45	Comprehensive service for tradespeople and SMBs – don't leave anything to chance.
04.11.2020	17:00 - 17:45	Manage tools digitally & easily - insights into the App twinio
05.11.2020	16:00 - 16:45	PC87 control system and Windows 10 update
	17:00 - 17:45	Edgeband Management Set – organize your edge materials in the app and in your racks
09.11.2020	16:00 - 16:30	ControllerMES
10.11.2020	09:00 - 10:00	woodWOP news & new online tools
	16:00 - 16:30	Configurator3D
11.11.2020	17:00 - 17:45	Service, maintenance & video diagnosis with the ServiceBoard
12.11.2020	08:30 - 09:15	woodWOP – tips and tricks for productive working
	16:00 - 16:45	Software modules for operating a CNC machining center
	17:00 - 17:30	Sorting Production Set – the assistant for sorting your parts in the workshop
16.11.2020	16:00 - 16:30	ControllerMES
17.11.2020	16:00 - 16:30	Configurator3D
18.11.2020	17:00 - 17:45	Enter the digital world: the tapio ecosystem for the wood industry

HOMAG Treff – Presence events in **Schopfloch**

Event Calendar Schopfloch.

Book one of the limited places for our on-site events and join us for a day packed full of specialist presentations, technology demonstrations, consultations and tours.

We look forward to hearing from you!

SUPPORTING PROGRAM

09:00	Start of the event
09:30 - 11:30	Presence talk and technology demonstration (1) Alternative: Company tour (1)
10:00 - 12:00	Supporting program / demos in the showroom
11:30 - 12:30	Presence talk and technology demonstration (2) Alternative: Machine demonstration with expert discussions
12:30 - 14:00	Lunch
14:00 - 15:30	Company tour (2) Alternative: Machine demonstration with expert discussion / reference customer visit
15:00 - 17:00	Supporting program / demos in the showroom
15:30 - 17:00	Presence talk and technology demonstration (3) Alternative: Machine demonstration with expert discussions
17:00	Common conclusion of the evening

How to find us:

HOMAG GmbH
Homagstraße 3-5
72296 Schopfloch

Event overview

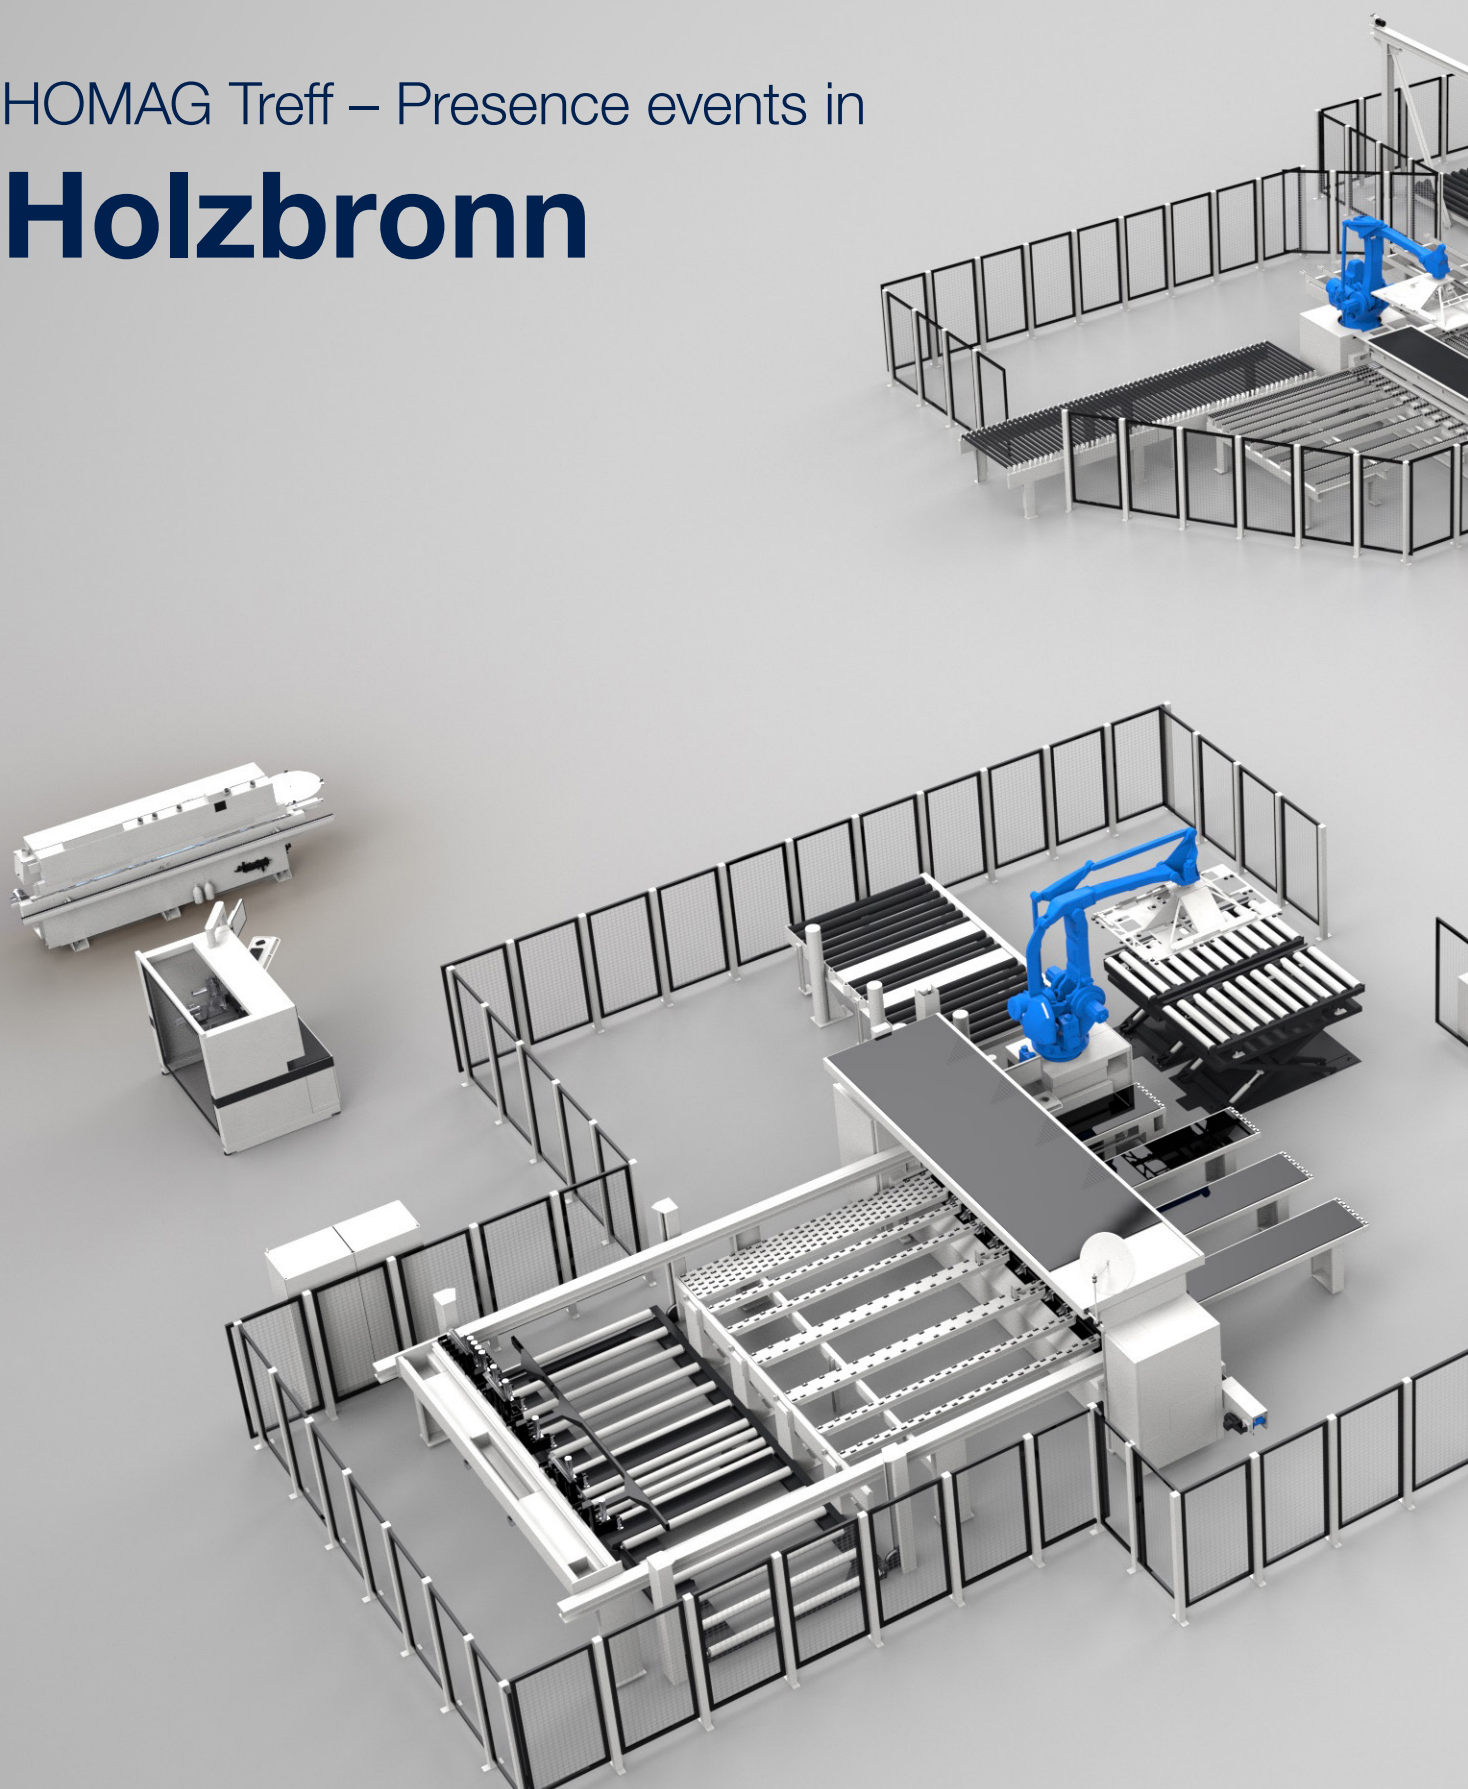

Date	Time	Subject of the event	Short description
21.09.2020	09:30 - 10:15	5-Axis technology	5-Axis technology – simple, safe, reliable and efficient in operation, all thanks to HOMAG programming and machine software
	09:30 - 10:30	Benefits of the HOMAG workpiece feed systems	Handling assistance from workpiece feed systems
	11:00 - 12:00	The powerEdge Pro Duo	New opportunities in edge banding for furniture and interiors
	14:00 - 14:45	The A-Flex table – turning “or” into “and”	The A-Flex table – turning “or” into “and”
22.09.2020	09:30 - 10:15	5-Axis technology	5-Axis technology – simple, safe, reliable and efficient in operation, all thanks to HOMAG programming and machine software
	09:30 - 10:30	Benefits of the HOMAG workpiece feed systems	Handling assistance from workpiece feed systems
	11:00 - 12:00	Flexible production down to batch size 1	Organizing flexible production
		The powerEdge Pro Duo	New opportunities in edge banding for furniture and interiors
	14:00 - 14:45	The A-Flex table – turning “or” into “and”	The A-Flex table – turning “or” into “and”
	14:00 - 15:00	Automatic changeover between edge banding techniques (zero-joint to hot-melt glue)	See a rapid technique changeover in action in the gluing unit of an edge banding machine
	14:30 - 15:30	Series production with edge banding machines (current case studies)	Edge banding with double-sided machines
	15:45 - 16:15	Handling hot-melt glue application units with the XES 200	Simple handling for hot-melt glues with the XES 200

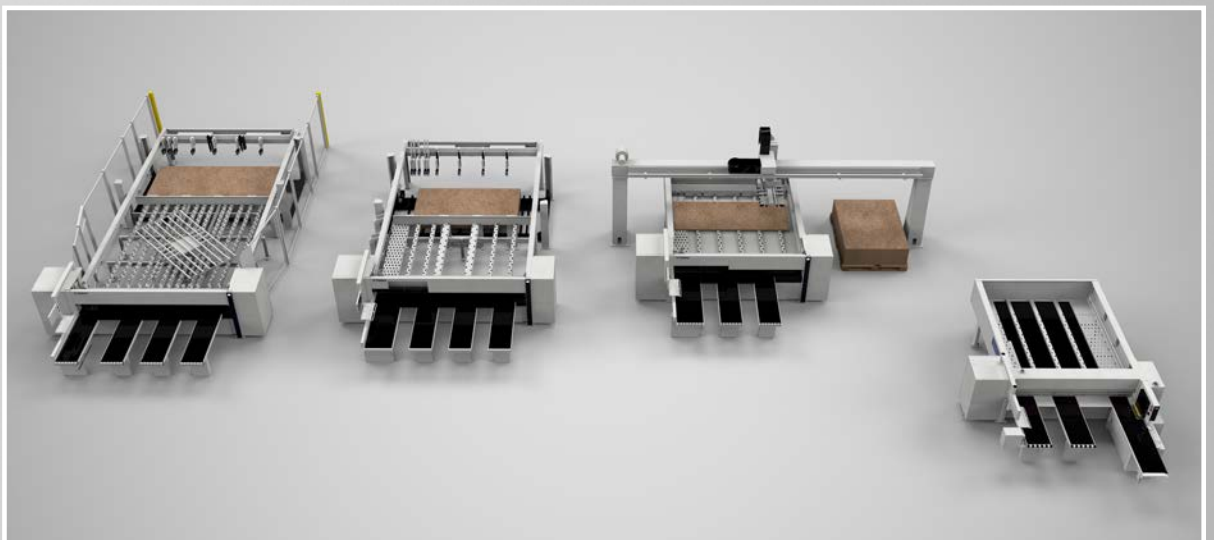

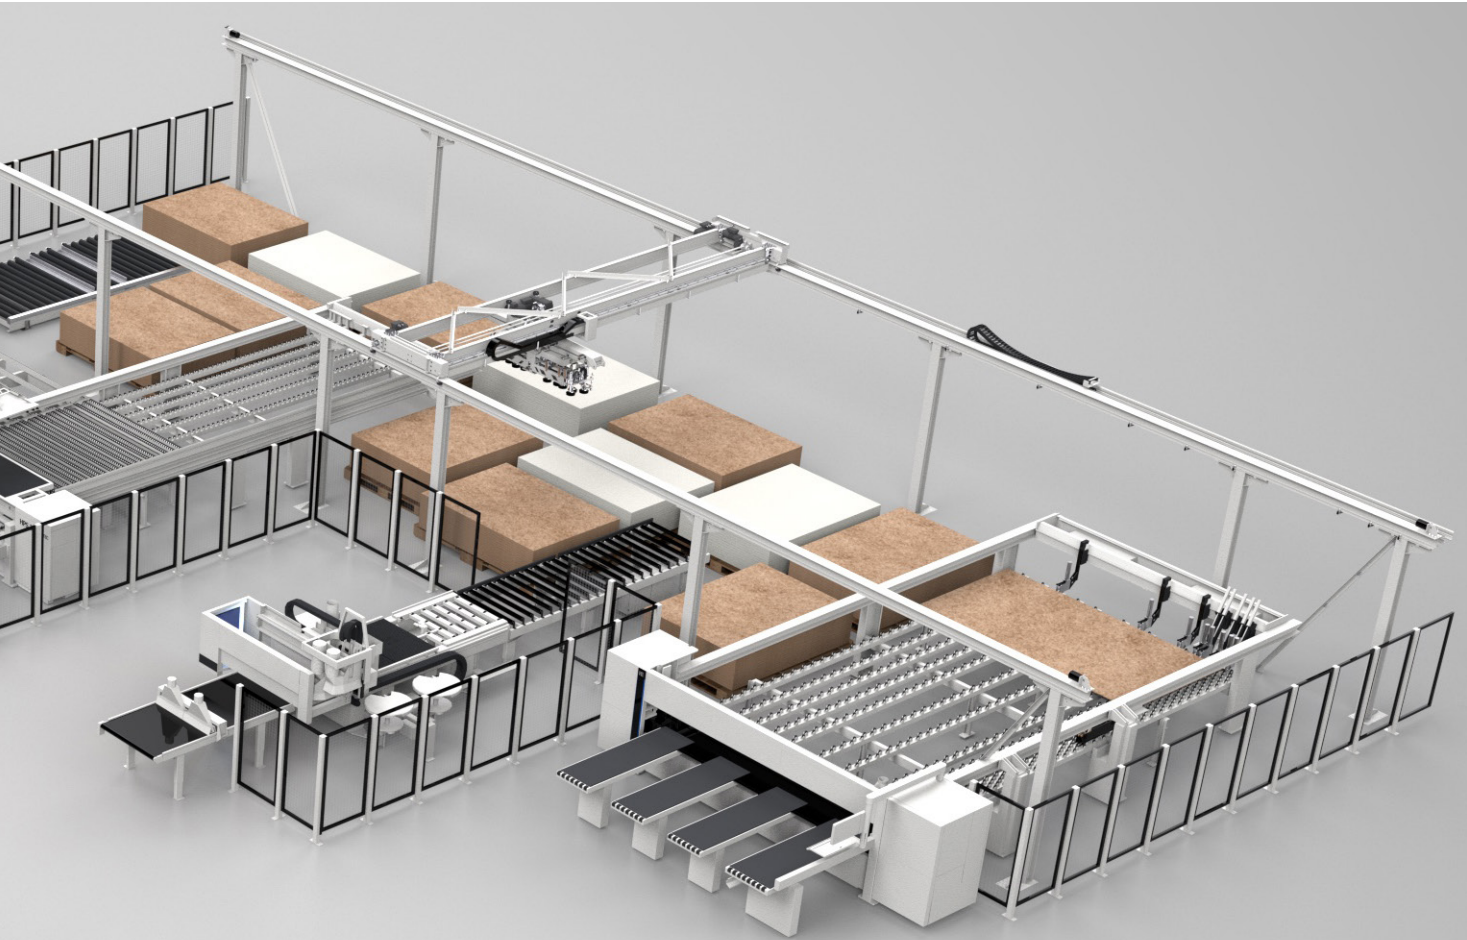

Date	Time	Subject of the event	Short description
23.09.2020	09:30 - 10:15	5-Axis technology	5-Axis technology – simple, safe, reliable and efficient in operation, all thanks to HOMAG programming and machine software

Event overview

Date	Time	Subject of the event	Short description
21.09.2020	09:30 - 10:30	Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
	14:00 - 15:00	Fully automated batch-size-1 production	In focus: The SAWTEQ B-320 flexTec
22.09.2020	09:30 - 10:30	Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
	16:00 - 17:00	Digital assistance systems for cutting operations	In focus: Digital helpers for panel dividing
23.09.2020	09:30 - 10:30	Fully automated batch-size-1 production	In focus: The SAWTEQ B-320 flexTec
	14:00 - 15:00	More organization and automation	In focus: The SAWTEQ B-300 in combination with the automatic horizontal storage system
	16:00 - 17:00	Modernization – simple and customized!	In focus: Customized modernization packages
24.09.2020	09:30 - 10:30	More organization and automation	In focus: The SAWTEQ B-300 in combination with the automatic horizontal storage system
	14:00 - 15:00	Fully automated batch-size-1 production	In focus: The SAWTEQ B-320 flexTec
	16:00 - 17:00	Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
25.09.2020	09:30 - 10:30	Digital assistance systems for cutting operations	In focus: Digital helpers for panel dividing
	14:00 - 15:00	More organization and automation	In focus: The SAWTEQ B-300 in combination with the automatic horizontal storage system
28.09.2020	09:30 - 10:30	Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
	14:00 - 15:00	Starting out in panel dividing technology	In focus: The SAWTEQ B-130 and SAWTEQ B-200

Date	Time	Subject of the event	Short description
29.09.2020	16:00 - 17:00	Digital assistance systems for cutting operations	In focus: Digital helpers for panel dividing
		Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
30.09.2020	09:30 - 10:30	Starting out in panel dividing technology	In focus: The SAWTEQ B-130 and SAWTEQ B-200
	14:00 - 15:00	More organization and automation	In focus: The SAWTEQ B-300 in combination with the automatic horizontal storage system
	16:00 - 17:00	Modernization – simple and customized!	In focus: Customized modernization packages
01.10.2020	09:30 - 10:30	More organization and automation	In focus: The SAWTEQ B-300 in combination with the automatic horizontal storage system
	14:00 - 15:00	Fully automated batch-size-1 production	In focus: The SAWTEQ B-320 flexTec
	16:00 - 17:00	Starting out in panel dividing technology	In focus: The SAWTEQ B-130 and SAWTEQ B-200
02.10.2020	09:30 - 10:30	Digital assistance systems for cutting operations	In focus: Digital helpers for panel dividing
	16:00 - 17:00	Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
19.10.2020	09:30 - 10:30	Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
	14:00 - 15:00	Fully automated batch-size-1 production	In focus: The SAWTEQ B-320 flexTec
20.10.2020	09:30 - 10:30	Process efficiency extending as far as automated "ghost shifts"	In focus: The SAWTEQ B-300 flexTec
	16:00 - 17:00	Digital assistance systems for cutting operations	In focus: Digital helpers for panel dividing
21.10.2020	09:30 - 10:30	Fully automated batch-size-1 production	In focus: The SAWTEQ B-320 flexTec
